### PROFILE

Recent graduate with a business education background and training in front-end development during on-the-job experience. Focused on developing user interfaces, I approach coding with a passion and a commitment to detail. As a beginner, I bring a keen interest in gaining more experience and honing my skills in the field. Eager to contribute my skills in a formal work environment, combining business acumen with coding expertise. Aspiring to transition into the role of a software engineer, my long-term goal is to leverage my coding skills to create my own app.

### WORK EXPERIENCE
